

### **Carpentry Level 1**

#### **CARP 1401**

This course will give you a solid introduction to carpentry and construction-related items, as well as build your confidence in working with wood. Topics include an introduction to all hand and power tools, building layout, formwork and basic framing, including door and window installation. You will also examine insulation, drywall installation and rafter cutting.  
**September 17 - December 10/Monday/6 p.m. - 10 p.m.**

### **Cabinet Making Level 1**

#### **CARP 1400**

In this introductory-level course, you will gain in-depth theory as well as a practical look at shop safety. You will also learn the correct use of hand and power tools (i.e. table, radial arm, mitre and jig saws, routers, and jointers). For your course project, you will complete a blanket box or tool chest, which you will be able to take home.  
**September 18 - December 11/Tuesday/6 p.m. - 10 p.m.**

Level 2 courses also available. Check our website for details.
