Proposed course description (max 1000 characters):

Draft list of topics/outcomes (excluding EESOs):

EESOs to be measured:

Communicate clearly, concisely and correctly in the written, spoken and visual form that fulfills the purpose and meets the needs of the audience.

Respond to written, spoken or visual messages in a manner that ensures effective communication.

Execute mathematical operations accurately.

Apply a systematic approach to solve problems.

Use a variety of thinking skills to anticipate and solve problems.

Locate, select, organize and document information using appropriate technology and information systems.

Analyze, evaluate and apply relevant information from a variety of sources.

Show respect for the diverse opinions, values, belief systems and contribution of others.

Interact with others in groups or team in ways that contribute to effective working relationships and the achievement of goals.

Manage the use of time and other resources to complete projects.

Take responsibility for one's own actions, decisions and consequences.

Draft evaluation plan (number and weighting of various evaluation items).

Note the need to avoid "hands-on" or "how-to" types of tasks.

Your credentials, formal and otherwise, relevant to your ability to teach this course (max 750 characters).

Why do you wish to teach this course? What interests you about this topic? (max 500 characters).
