

TurningPoint 8

Steps to Successfully Running Mobile ResponseWare

Mobile response must be enabled for participants to use the TurningPoint app as a response device

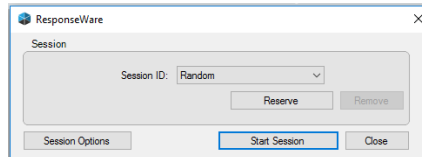

IMPORTANT: TurningPoint app is a virtual response solution that allows participants to respond through web-enabled devices and applications available for smart phones and tablets. If you do not use mobile, skip this task.

1. Open TurningPoint and sign in to your Turning Account.
2. Click Continue
3. Click “**Click to Connect**” in the upper right corner of the TurningPoint Dashboard.

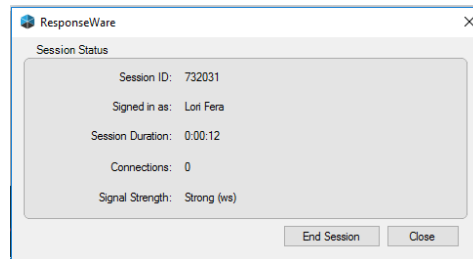

4. Click Start Session. The Mobile Session Status window opens.

The *Mobile Session* window opens.

5. Share 6 digit code with participants, Session ID

6. Click **Close** to return the TurningPoint Dashboard.
7. Select **PowerPoint Polling** from the TurningPoint Dashboard.
8. Open your PowerPoint presentation.
9. Reset the session on the TurningPoint tab.
10. Enter slideshow mode to start polling.
