

Access and Support Centre

Dear Health Care Professional:

A patient of yours is enrolled in a program at Durham College and has requested accommodations and/or supports from the Access and Support Centre.

In order to receive accommodations and support, students who have a medical diagnosis that may impact their academic participation must provide sufficient current documentation to verify the diagnosis, and the specific impact of the diagnosis on academic performance. Documentation must come from a practitioner who is certified in the specific area(s) of the student's diagnosis.

Please find attached our Medical Form, which we are requesting you complete on behalf of the student. If a student is planning to apply for OSAP, we will accept a completed OSAP Disability Verification Form for the current year, as an alternative to this document.

If you have any questions or concerns regarding this request, please contact our office and we would be happy to assist.

Thank you in advance for your time and support.

PART 3: ACADEMIC IMPACT

Please indicate if this student is on any medications with possible side effects related to academic performance:

Yes No

If yes, please identify the academic impact

Current impact of diagnosis(es) on academic participation:

	IMPACT
In the Classroom Environment	
In the Testing Environment	
While Completing Schoolwork Outside of Class	
In a Field Placement	
In a Practical Lab Setting	

Based on the identified diagnosis(es), what academic accommodations would you recommend to promote this student's academic success? Please see the guide below and check all that apply or identify any other recommendations in the 'other' section.

- Extra time for tests/exams
- Flexible deadlines
- Spacing between final tests/exams: Please specify: _____
- Note taking support
- Reducing course load beyond 60% (only applicable for those full-time students with permanent disabilities)
- Memory aids
- Counselling support
- Physical modifications to the learning environment: _____
- Assistive Technology
- Clarification of Test Questions
- Other _____
