Project Management Program
International Student from Ghana

STUDENT TESTIMONIAL

As an international student from Ghana, my journey to DC started when my visa was delayed, and I had to defer my program start date. I was impressed with the systematic and simple process I had to follow to submit my deferral application, and how swift the Admissions team were to confirm my placement in the new intake.

Furthermore, being it, my first time studying abroad, I had many questions and concerns that were resolved during the Start Strong Series organized by DC before I travelled to Canada. I say a big thank you to the organizers and speakers. I would also like to mention how helpful the Home@DC mini modules were in helping me start my journey in Canada and at DC successfully.

Lastly, the staff at the International Student office were very helpful by providing me with detailed steps and videos on how to submit my study permit extension application when I needed to. People at DC are ready to help, I feel at home here. Join us at DC.
