

MICHELLE

Music Business Administration Program
International Student from Indonesia

STUDENT TESTIMONIAL

My two-year program at Durham College brought me such great memories. Thanks to the admission officers and advisors, I had a very smooth application process and transition to college life.

As the year went by, I started being more involved in the community as a student, employee, and volunteer. From helping out with open houses at the Whitby campus and participating in the Oshawa Music Week organized by our Music Business Management students to working at the International Office as a work-study student.

Not only was I able to navigate through my academic years, but I also found it easy to build friendships at Durham College. The connections I built along the way made a tremendous impact on where I am now.

I am forever grateful to all of my friends, professors, advisors, and colleagues at the International Office for providing a safe space and constantly creating opportunities for us students. Thank you to everyone at the CRWC for all your hard work in putting together programs for us right after the pandemic
