International Student from Mexico**

STUDENT TESTIMONIAL

Being a mature student, you may feel insecure about taking classes with much younger students, but I quickly found that age is just a number, and the supportive environment at DC made me feel right at home. The professors and staff are highly qualified and make efforts every day to find ways to help students learn, including sharing their own experiences with us. An atmosphere of respect, knowledge, and friendship can be felt all around the College. I am glad I chose Durham College as the place in which I could not only pursue my academic goals but also grow personally and professionally. Thanks, Durham College!
