Human Resources- Business Program  
International Student from Russia

# STUDENT TESTIMONIAL

I enrolled at Durham College right after high school, moving alone to another continent during the COVID pandemic. It was a big leap, and I had no idea what to expect. But the college quickly made me feel like at home.

The professors and staff were professional, approachable, and always there to help. The HR program gave me a strong foundation in key areas. I gained not only theoretical knowledge but also practical skills through case studies, group projects, and real-world applications.

I also appreciated the wide range of student facilities and events, where everyone could find something for themselves and meet like-minded people. This made campus life vibrant, enjoyable, and helped me build lasting connections.

Now, as a graduate, I'm grateful for the support I received. I'm glad I chose Durham College. It was the perfect place to start my journey, equipping me with both the knowledge and confidence to succeed in my career.
