# SUMMARY OF ADVERTISING/MARKETING COMPLAINTS RECEIVED

Durham College has not received any advertising or marketing complaints for the fiscal year 2022-2023.

## OVERVIEW OF SUCCESSES AND ACHIEVEMENTS FOR THE PREVIOUS YEAR

Achieving the objectives outlined in the annual Business Plan each year is important to the success of the college's strategic plan. The Ontario Minister's Binding Policy Directive for Annual Reports requires each college to summarize the results of its Business Plan from the previous year in its annual report, recognizing the importance of these objectives to post-secondary institutions.

For the 2022-2023 fiscal year, the college successfully completed the majority of the actions laid out in the business plan. Furthermore, this past June marked the first in-person convocation ceremonies in two years. Multiple ceremonies were held for the graduates of 2020, 2021 and Spring 2022. More than 3,500 students crossed the stage during these ceremonies and the college surpassed an incredible milestone with total alumni reaching 100,000 members.

Highlights of the past year's achievements include:

### OUR STUDENTS

- » Launched the International Wellness Checks initiative (IWC), a service offered at the Campus Health and Wellness Centre (CHWC), covered by student insurance that is available to all international students. Services include physical exams, medical history and immunization status review, health screening, medication management, culturally-appropriate health education and more. So far, over 95% of students felt satisfied or very satisfied, and 100% would recommend IWC to their peers.
- » In addition to launching new programs that include Honours Bachelor of Construction Management honours degree, the Web Development diploma, and the Supply Chain Management – Global graduate certificate, DC also added new work-integrated learning options in several programs, including Cybersecurity, Automotive Technician, Supply Chain Management and Computer Programming and Analysis.

### OUR PEOPLE

- » Achieved GTA's Top Employers designation for the 12th consecutive year, in addition to being named one of Canada's Greenest Employers.
- » This year saw a significant expansion of the Scholarship of Teaching and Learning (SoTL) Projects. These projects help faculty investigate new teaching and learning practices to apply innovative new ways to teach in their classes and share outcomes with their peers to improve the overall student learning experience. Some project topics included modernizing referencing sources for students, reviewing automated assessments for coding programs and the impact of health promotion and wellness curriculum on wellness, motivation, learning and academic success.

### OUR WORK

- » The Building for Skills Campaign successfully closed this year, raising more than \$10 million toward the Ontario Power Generation Centre for Skilled Trades and Technology (CSTT). The 60,000 sq. ft. building has added capacity for 750 students at the Whitby campus in high-demand trades. The campaign was largely successful due to strong industry support from the community. Public recognition of the campaign took place in February of 2023.
- » The Innovate@DC platform launched in October, and since then, five challenges have been shared using the Bright Ideas Hub. Over 100 employees have taken part in two Think Tank sessions that have been held. These sessions are an opportunity for staff to participate in interactive activities to brainstorm innovative ideas to move our work forward.

### OUR COMMUNITY

- » With the generous support of the Barrett Family Foundation, DC has found a site for the first Barrett Urban Farm. Working with the Region of Durham and the Town of Ajax, the new farm is located at Harwood and Rossland in Ajax. The site is currently being developed with the first round of planting and harvesting to take place this 2023 season.
- » Together with the Regional Municipality of Durham (Consortium lead), and the Durham Workforce Authority, DC was selected by the Province of Ontario as the Service System Manager for all regional employment services in Durham Region.
